148mm Square Template

1. Drop your artwork into the template.

2. Ensure your design layer is positioned under the 'Border' layer.

3. Scale and position your design so that it fits within the template but doesn't go into the border.

4. When you're happy with your design, hide the 'Instructions' layer, Flatten your artwork, and Save as a High Quality PDF.

5. Attach your file when you place your order.

6. Sit back and relax, if we have any questions at all regarding your artwork, we'll get in touch!
